The MetroCabin requires some kind of foundation. Because each building site offers a different terrain and conditions, we cannot include a foundation with the Cabin. In many locations your foundation can be as simple as purchased concrete pads set on the ground. Installing a foundation is the responsibility of the buyer. It is recommended that the foundation be completed before the Cabin is delivered.

I hereby agree to order the MetroCabin product at the costs stated above and have read and agree to the warranty stated below. I further understand that signing the order form and forwarding the deposit constitutes an agreement to purchase a MetroCabin. I understand MetroCabin production will be on a first come first serve basis, as will delivery. I understand I am solely responsible for all building permits, building and/or safety codes (if applicable) in the installation of the MetroCabin on my residential, rural or commercial property.

I understand MetroCabin reserves the right to change, discontinue or substitute materials. I understand that the MetroCabin delivered will consist of all floor, wall, door, roof panels (which will be partially assembled for easy customer assembly) as well as fasteners and hardware, but not include any foundation, lighting, steps, assembly, or installation services from MetroCabin unless otherwise stated or specifically purchased.
